

Interim Report

April 1st – June 30th, 2021

ARR growth of +66% while sharpening the sales team to take on the increased demand from global customers

- Continued strong growth in ARR to 29 MSEK (+66%).
- New sales director employed and will start in August.
- Intensified focus on both partner sales and direct sales.
- Churn in Q2 remained low at 0,3%.

Summary of Interim Report

The Group

First six months (2021-01-01 to 2021-06-30)

- Net turnover amounted to 12 723 (9 555) TSEK, an increase of +33% compared to the same period last year.
- Loss after financials and minority share amounted to -12 817 (-13 537) TSEK.
- Loss per share* before dilution amounted to -0,46 (-0,56) SEK.
- Loss per share* after dilution amounted to -0,43 (-0,51) SEK.

Second quarter (2021-04-01 to 2021-06-30)

- Net turnover amounted to 6 600 (4 746) TSEK, an increase of +39% compared to the same period last year.
- Loss after financials and minority share amounted to -5 648 (-7 928) TSEK.
- Loss per share* before dilution amounted to -0,19 (-0,33) SEK.
- Loss per share* after dilution amounted to -0,17 (-0,30) SEK.
- The solidity** amounted to 67,6 (62,4) %.

Growing SaaS Traction

Second quarter (2021-04-01 to 2021-06-30)

- Annual recurring revenue (ARR) at the end of Q2 2021 was 28 865 (17 352) TSEK, a year-on-year increase of +66%.
- Recurring revenue amounted to 6 521 (4 338) TSEK, which represents 99% (91%) of the quarterly revenue.
- Churn for the quarter was 0,3%.

Amounts within brackets regard the corresponding period last year.

*Result per share: The result is divided by the average number of shares (after dilution includes average number of share options).

**Solidity: Equity divided by total assets.

Significant events during the second quarter, 2021.

- At the end of Q2 Safeture together with SPS, an international security and assistance company, signed a deal worth 383 KEUR with an unnamed large German company. The contract implies rolling out the Safeture platform to 60.000 employees worldwide.
- Safeture is creating a new commercial team. The company will more efficiently and purposefully handle both direct and indirect commercial opportunities in the future. In this venture, Nicola Dolovski has been appointed Commercial Director with responsibility for sales and customer development. Dolovski most recently came from Parkster where he was heading up the Marketing & Sales organization. During his time at Parkster, the company grew from SEK 4 million to SEK 750 million in sales.

Message from the CEO Magnus Hultman:

“Sharpening our sales to take on increased demand from global customers”

Despite the extensive roll-out of vaccines, the post-pandemic effects continue to linger. The sales cycle remains longer than expected, and changes in customer behavior highlighted the need to look at and evaluate our sales processes. Still, the second quarter came in strong.

Growth through new customers

Highlights for the quarter are the continued strong growth in ARR and continued low churn. The annual recurring revenue (ARR) grew to 28,9 MSEK during the second quarter of 2021, which is a rise of 66 % year-on-year. The increase was primarily due to new Safeture customers. The most significant order of the quarter is an unnamed global company from Germany. The success factors behind this new deal are our world-class technology platform and our commitment to data protection and privacy. The Safeture platform will be rolled out to 60 000 employees in the German company. The new account is a top ten account for us, where the top three are Chubb (insurance), Siemens (manufacturing), and a Swedish global furniture company.

Strengthening the commercial organization to focus on commercial outcomes

At the end of the quarter, our Sales Director was replaced with a Commercial Director. We welcome Nicola Dolovski to Safeture, where he will have the commercial responsibility for all sales activities, including direct and partner sales as well as customer development. The primary reason for hiring a commercial director is to have a holistic view of sales since we see an increased need to also address complementary channels such as online sales and partner sales as well as direct sales. Direct sales

have suffered during the pandemic since it has been harder to visit prospects or attend trade fairs. Instead, our other channels have grown significantly, and we believe they will continue to do.

Sustainable growth by retaining and growing existing customer base

A part of our growth plan is to enhance “the customer journey” as part of our customer development. The challenge is to define how we can use our platform to help our customers establish world-class risk management and employee safety organizations. Customer development is a relatively new function at Safeture but is scaling up nicely now, catering to our very large untapped customer base of +3 600 customers globally (direct and in-direct customers).

As we become a more mature SaaS company, it is essential to be able to evaluate the existing customer base with transparent and adequate tools. That is why we are introducing Net Revenue Retention (NRR) as an additional growth indicator. Net Revenue Retention is a core KPI for SaaS companies and measures the percentage of recurring revenue retained from existing customers, including upgrades, downgrades, and cancellations (churn). For the second quarter it was over 100 % which is a sign that the business is healthy and can grow even without acquiring new customers. It also shows that the revenue generated from upgrades and cross-sells exceeded revenue lost due to churn or downgrades.

Commercial opportunities with diversified sales channels

We are continued optimistic for 2021 even though lead times have been longer than expected and that there will be short time effects getting the new commercial organization in place in the third quarter. Continued focus on diverse sales channels will be as important going forward as it was in the first half of 2021.

Magnus Hultman, CEO of Safeture
Lund, July 2021

About Safeture AB

Safeture offers a complete cloud-based SaaS platform designed to manage risk, safety, and crises involving employees wherever they are.

The Safeture platform gives larger corporations the ability to effectively automate safety and security processes. Today's employees work more and more outside the office, and companies demand a flexible software solution that seamlessly integrates with their internal systems.

Modern companies' operations are closely tied to the employees, and mobile technology enables them to work everywhere, at home, at airports, at café's or at suppliers. With globalization driving increased mobility, companies need new tools to safeguard both their employees and their operations. Safeture creates a virtual security sphere around each employee wherever they are.

The Safeture platform has a vast number of functions and components that can be used off-the-shelf, such as mobile apps, travel tracking, flight updates, global real-time alerts, e-learning, bulk messaging, country and medical information, all in the same tool. It is an open platform, which allows clients to adopt specific internal processes and integrate them with external suppliers, such as assistance providers or other software, including internal employment databases or intranets.

Through world-leading technology and innovative solutions, Safeture helps companies and organizations to protect what matters most – their employees.

History

The Company was founded in 2009, triggered by the experience of the global SARS epidemic, the Indian Ocean tsunami and the Mumbai terror attacks, where people could have been warned earlier and received more information.

Overall Goals

- To establish Safeture as a world leading SaaS platform for employee safety.
- To establish Safeture as a first choice for demanding enterprise customers to handle their duty of care.

Vision & Mission

Our vision is to save lives and to prevent harm by making risk, safety and security information available to users at the right time, no matter where they are. We will achieve this by providing the best platform and content that enables implementation of risk, safety and security processes and distribution of reliable information to individuals and organizations.

Sales & Strategy

Safeture's global sales strategy is to target large companies through direct sales and work through partners to reach other B2B customers. Suitable local and global partners are within security, insurance, response services and travel. The business model is SaaS, Software as a Service.

Research & Development

Research and development are prioritized areas within Safeture, and we operate in a market area that is still immature. The company invests continuously in research and development to maintain its technological lead. Thanks to a close cooperation with our customers, we develop and adapt our products continuously. The cutting-edge knowledge that we gather from the cooperation with our customers is used in our technical development to invent new solutions and keep our advantage in relation to our competitors.

Risks & Uncertainties

Safeture is exposed to general business related and financially related risks. These risks are described more in detail in the Annual Report for 2020, available on the company's web page. Apart from the uncertainties regarding the Corona effect no other risks have been identified for 2021.

Organization & Personnel

The average number of employees in the parent company for the first six months 2021 amounted to 38 (33). The increase refers mainly to hiring within the area of sales and marketing as part of building a SaaS oriented organization. The corresponding figure for the Group amounted to 42 (37).

Development in figures during the second quarter, 2021.

Turnover

During 2020, Safeture made a transformation to a full-scale SaaS business. The recurring revenue coming from platform subscriptions represents 99% of the revenue in Q2 2021. Net turnover for the Group and the Parent company during Q2 2021 amounted to 6 600 TSEK, which is an increase of 39% compared to the same quarter last year. The effect of increased order intake during 2020 is now having a noticeable effect on the revenue growth. The company will continue to fulfil the strategy of refocusing sales efforts to selling the scalable core platform instead of selling one-off development projects.

Result

The loss in Q2 2021 for the Group amounted to -5 648 (-7 928) TSEK. The loss for the Parent company amounted to -5 658 (-7 869) TSEK. Large investments in building up the sales and marketing organization during 2020 is still the main reason for the loss, although the quarterly results are clearly trending in the right direction.

Higher sales together with improvements in gross margin from 60% to 68% have a positive effect on the result for Q2 2021 compared to last year. An increased installed user base together with a high portion of fixed cost of sales for running the platform will have continued positive impact on the gross margins going forward. In Q2, gross margin in absolute terms exceeded the total investment in sales & marketing, an important internal sub target to eventually reach profitability.

Due to COVID-19, travelling and non-digital marketing events have been non-existing during the quarter which is also positively affecting the bottom-line.

SaaS Metrics Development by Quarter

TSEK	Q419	Q120	Q220	Q320	Q420	Q121	Q221
Recurring Revenues *	4 347	4 770	4 338	4 802	5 422	5 946	6 521
Recurring Revenues/ Total Revenues	64%	99%	91%	86%	85%	97%	99%
Annual Recurring Revenues (ARR)**	17 388	19 080	17 352	22 517	23 848	27 061	28 865
Churn	0%	1%	8%	0%	0%	0,8%	0,3%
Net Revenue Retention (NRR) ***							100,4%

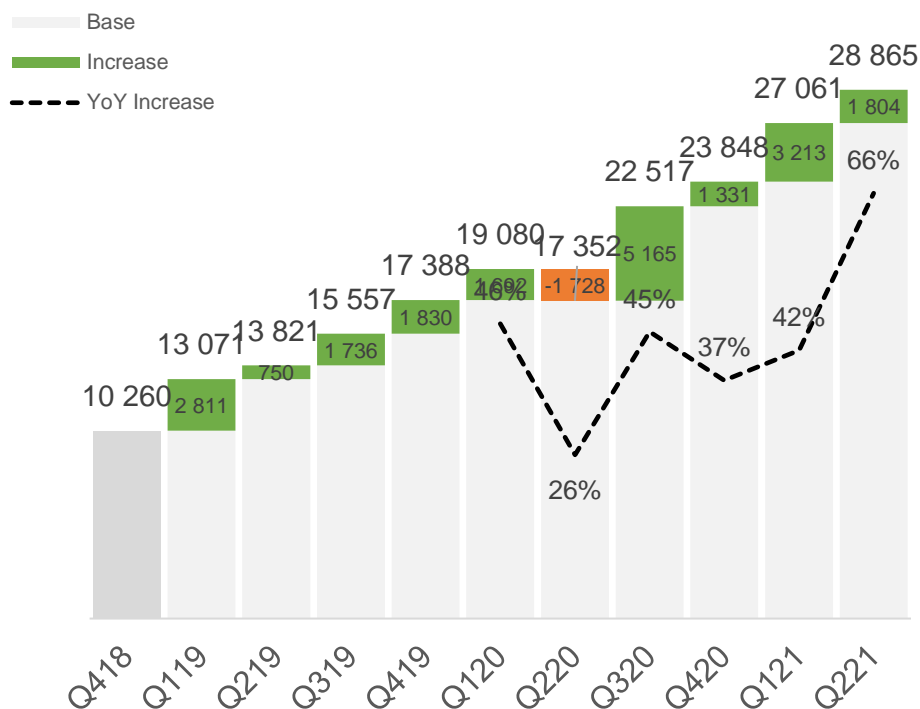

* Recurring revenue represents the portion of revenue that is expected to continue in the future.

** ARR represents the contracted recurring revenue for the coming 12 months.

*** NRR represents percentage of recurring revenue retained from existing customers, including upgrades, downgrades, and cancellations (churn).

Annual Recurring Revenue (ARR) Trend

Quarterly Development (TSEK)

Recurring revenue amounted to 6 521 (4 338) TSEK, which represents 99% (91%) of the quarterly revenue.

Annual recurring revenue (ARR) at the end of Q2 2021 increased to 28 865 (17 352) TSEK, which represents a year-on-year increase of +66%.

Liquidity

Cash in bank for the Group, as of June 30, 2021 amounted to 28 052 (17 840) TSEK, while cash in bank for the Parent company as of March 31, 2021 amounted to 27 952 (17 722) TSEK. Q2 cash-flow for the Group and the Parent company amounted to -4 210 (+12 723) TSEK and -4 200 (+12 755) TSEK respectively. Several clients are invoiced yearly in advance, at the time for the yearly subscription renewal, which implies significant cash flow fluctuations between the quarters.

Investments

Q2 investments in intangible and tangible assets amounted to 1 676 (1 075) TSEK for the Group and the Parent company. The investment consists of capitalized platform development cost.

Solidity

The solidity of the Group as of June 30, 2021 compared to last year increased to 67,6 (62,4) %, while the solidity for the Parent company increased to 67,8 (62,8) %.

The Share

There is only one class of shares in Safeture AB. The shares of the Company are listed on Nasdaq First North Growth Market in Stockholm under the abbreviation, "SFTR". As of June 30, 2021, the Company has issued 30 113 110 (23 193 737) shares. The average number of shares for Q2 2021 amounted to 30 113 110 (24 353 424) shares.

Share Options

On May 29th, 2018, a general meeting was held and decided on a directed issue of 800 000 share options of series 2018/2021 to employees and key personnel of the Safeture Group. 794 000 share options were subscribed. The share options were issued at the price of 0,07 SEK per option. The subscription price for exercising the share options amounts to 9,86 SEK per option. The share options may be exercised during the period December 13th, 2021 – December 17, 2021. One (1) share option gives the right to subscribe for one (1) new share.

On July 17th, 2019, a general meeting was held and decided on a directed issue of 1 142 500 share options of series 2019/2022 to employees and key personnel of the Safeture Group. 1 070 880 share options were subscribed. The share options were issued at the price of 0,628 SEK per option. The subscription price for exercising the share options amounts to 7,97 SEK per option. The share options may be exercised during the period July 18th, 2022 – July 29, 2022. One (1) share option gives the right to subscribe for one (1) new share.

On June 4th, 2020, a general meeting was held and decided on a directed issue of 200 000 share options of series 2020/2023 to employees and key personnel of the Safeture Group. 175 000 share options were subscribed. The share options were issued at the price of 1,56 SEK per option. The subscription price for exercising the share options amounts to 16,55 SEK per option. The share options may be exercised during the period June 5th, 2023 – June 15th, 2023. One (1) share option gives the right to subscribe for one (1) new share.

On May 20th, 2021, a general meeting was held and decided on a directed issue of 350 000 share options of series 2021/2024 to board members and key personnel of the Safeture Group. The share option price and the subscription price will be set by an external valuation institute using the Black & Scholes valuation model. The share options may be exercised during the period June 4th, 2024 – June 14th, 2024. One (1) share option gives the right to subscribe for one (1) new share.
